Using Sayl

Sayl is a personal lubricant created with organic aloe vera and intended for penile and/or vaginal use. It can be used to moisturize and lubricate, enhance the ease, comfort, and pleasure of intimate activity, and supplement the body's natural lubrication.

Twist the pump to unlock it, then press to dispense the product. Apply the desired amount to the area you wish to lubricate.

This all-natural formula has been engineered for more fun and more pleasure. We love using Sayl alone, with a partner, for hand jobs, for vaginal sex, and literally everything in between.

Caution

Sayl is not compatible with polyurethane condoms. Discontinue if irritation or discomfort occurs. Keep out of reach of children and out of eyes and ears. Store at room temperature. This product does not contain spermicide and is not intended to be used as a contraceptive.

Ingredients
